

# Victoria Nazari

## Skills

- Python
- Java
- Objective-C
- JavaScript
- React
- PHP
- SQL
- HTML
- CSS
- gRPC
- Git
- Xcode
- BigQuery
- Docker
- TeamCity

## Experience

**WePay Inc**, Redwood City, CA | 2018 – Present

*Senior Software Engineer – Card Present Team*

- Created and maintained new features for WePay's iOS SDK. The SDK interacted with Verifone and Ingenico card readers.
- Interacted with third party software vendors to resolve various bugs.
- Interfaced with customers to resolve integration issues.
- Worked with product managers and engineering leads to prioritize tasks.
- Interviewed candidates for engineering positions.
- Integrated with various third party iOS frameworks.

*Software Engineer – API Team*

- Created scripts to automatically generate internal and external documentation. The documentation was generated from OpenAPI schemas.
- Managed WePay's app configuration microservice. This service was a critical piece of WePay's infrastructure.
- Designed and implemented customer facing APIs for payment reconciliation.
- Mentored an intern as they created a SDK generator. The generator used OpenAPI schemas to generate SDKs in various languages.

**Vimeo Inc**, New York, NY | Summer 2017

*Engineering Intern – Creator Tools*

- Created a JavaScript SDK that enabled third party website users to choose videos from their Vimeo accounts.
- Worked on a tool that allowed users to upload videos to Instagram from their Vimeo accounts.

**Rice University**, Houston, TX | 2017 – 2018

*Teaching Assistant – Fundamentals of Parallel Programming*

- Held office hours, graded projects, and led labs.

## Education

**Rice University**, Houston TX | 2014 - 2018

B.S. in Computer Science
